

The background is a light blue gradient. It is decorated with various dark blue and medium blue geometric shapes, including circles, semi-circles, and larger curved blocks, primarily located along the top and bottom edges.

# EDITKARO PORTFOLIO

Presented by Sandhya Rani Yalla

# INTRODUCTION

Editkaro Portfolio is a personal website created to present creative video editing and digital storytelling skills in a professional way. It acts as a digital resume where projects are displayed with an attractive layout, smooth animations, and responsive design. The portfolio is designed to give visitors an easy and engaging experience while highlighting the creativity and technical expertise of the developer. Its main purpose is to build a strong online presence and provide clients, recruiters, and collaborators with a clear view of the work and skills showcased.

# PROBLEM STATEMENT

In today's digital world, it is difficult for creative professionals to showcase their skills through traditional resumes alone. Without a portfolio, clients and recruiters cannot properly judge the quality of work or creativity. Social media platforms are scattered and do not provide a structured, professional presentation of projects. To overcome this challenge, there is a need for a dedicated portfolio website that can organize, highlight, and present creative work in a clear and effective manner.

# OBJECTIVES

1. Create a professional and visually appealing portfolio website.
2. Showcase creative video editing and digital media projects effectively.
3. Provide easy navigation and responsive design for all devices.
4. Serve as a central hub to highlight skills and attract clients or employers.
5. Strengthen personal branding and online presence.
6. Ensure the website is easy to maintain and update with new projects.

# TECHNOLOGIES USED

- ➡ **HTML5** – for structuring the web pages.
- ➡ **CSS3** – for styling, layouts, and responsive design.
- ➡ **JavaScript** – for interactivity and animations
- ➡ **Git & GitHub** – for version control and project management
- ➡ **VS Code** – as the main code editor for development.

# KEY FEATURES

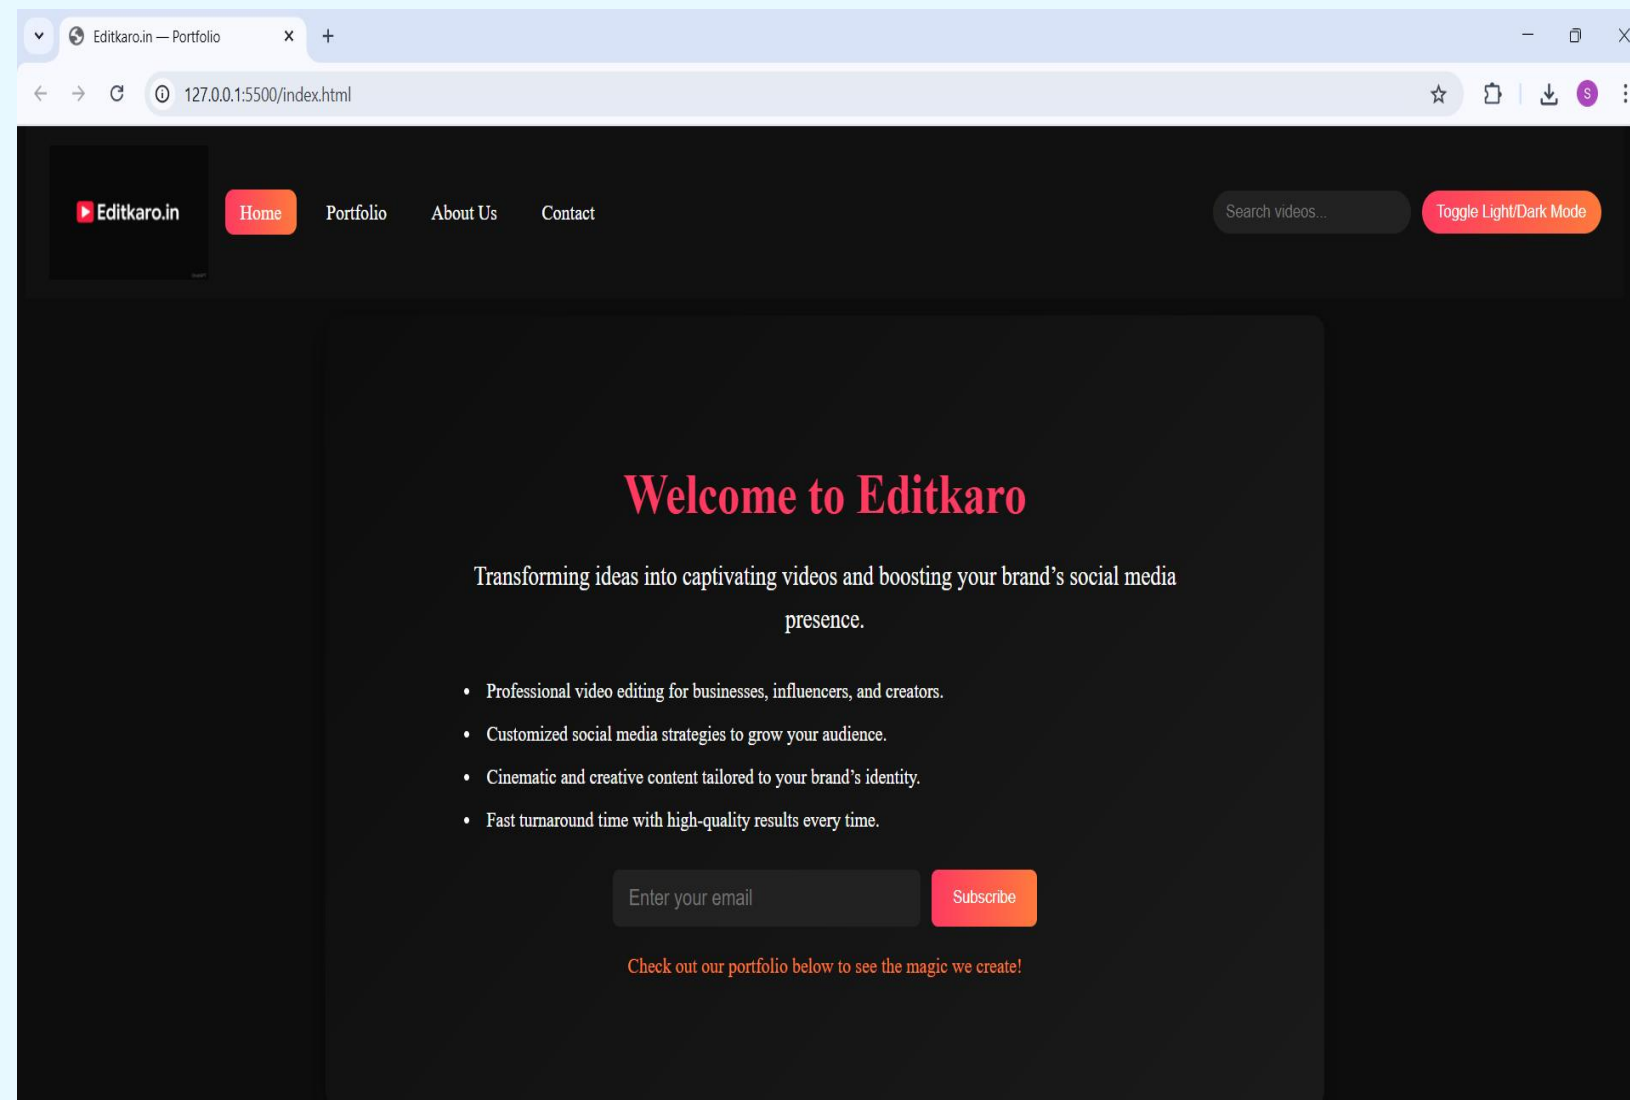

- Interactive project showcase with thumbnails and descriptions.
- Smooth animations and hover effects for better user experience.
- Fully responsive design across desktop, tablet, and mobile.
- Contact form for easy communication with clients and collaborators.
- Easy navigation with clear layout and professional presentation.

# WORKFLOW

The development process included planning and designing the layout, coding with HTML, CSS, and JavaScript, testing responsiveness across devices, and deploying the site on GitHub Pages. The project was maintained and updated to ensure that new projects and content could be easily added in the future.

# DEMO

## HOME PAGE:

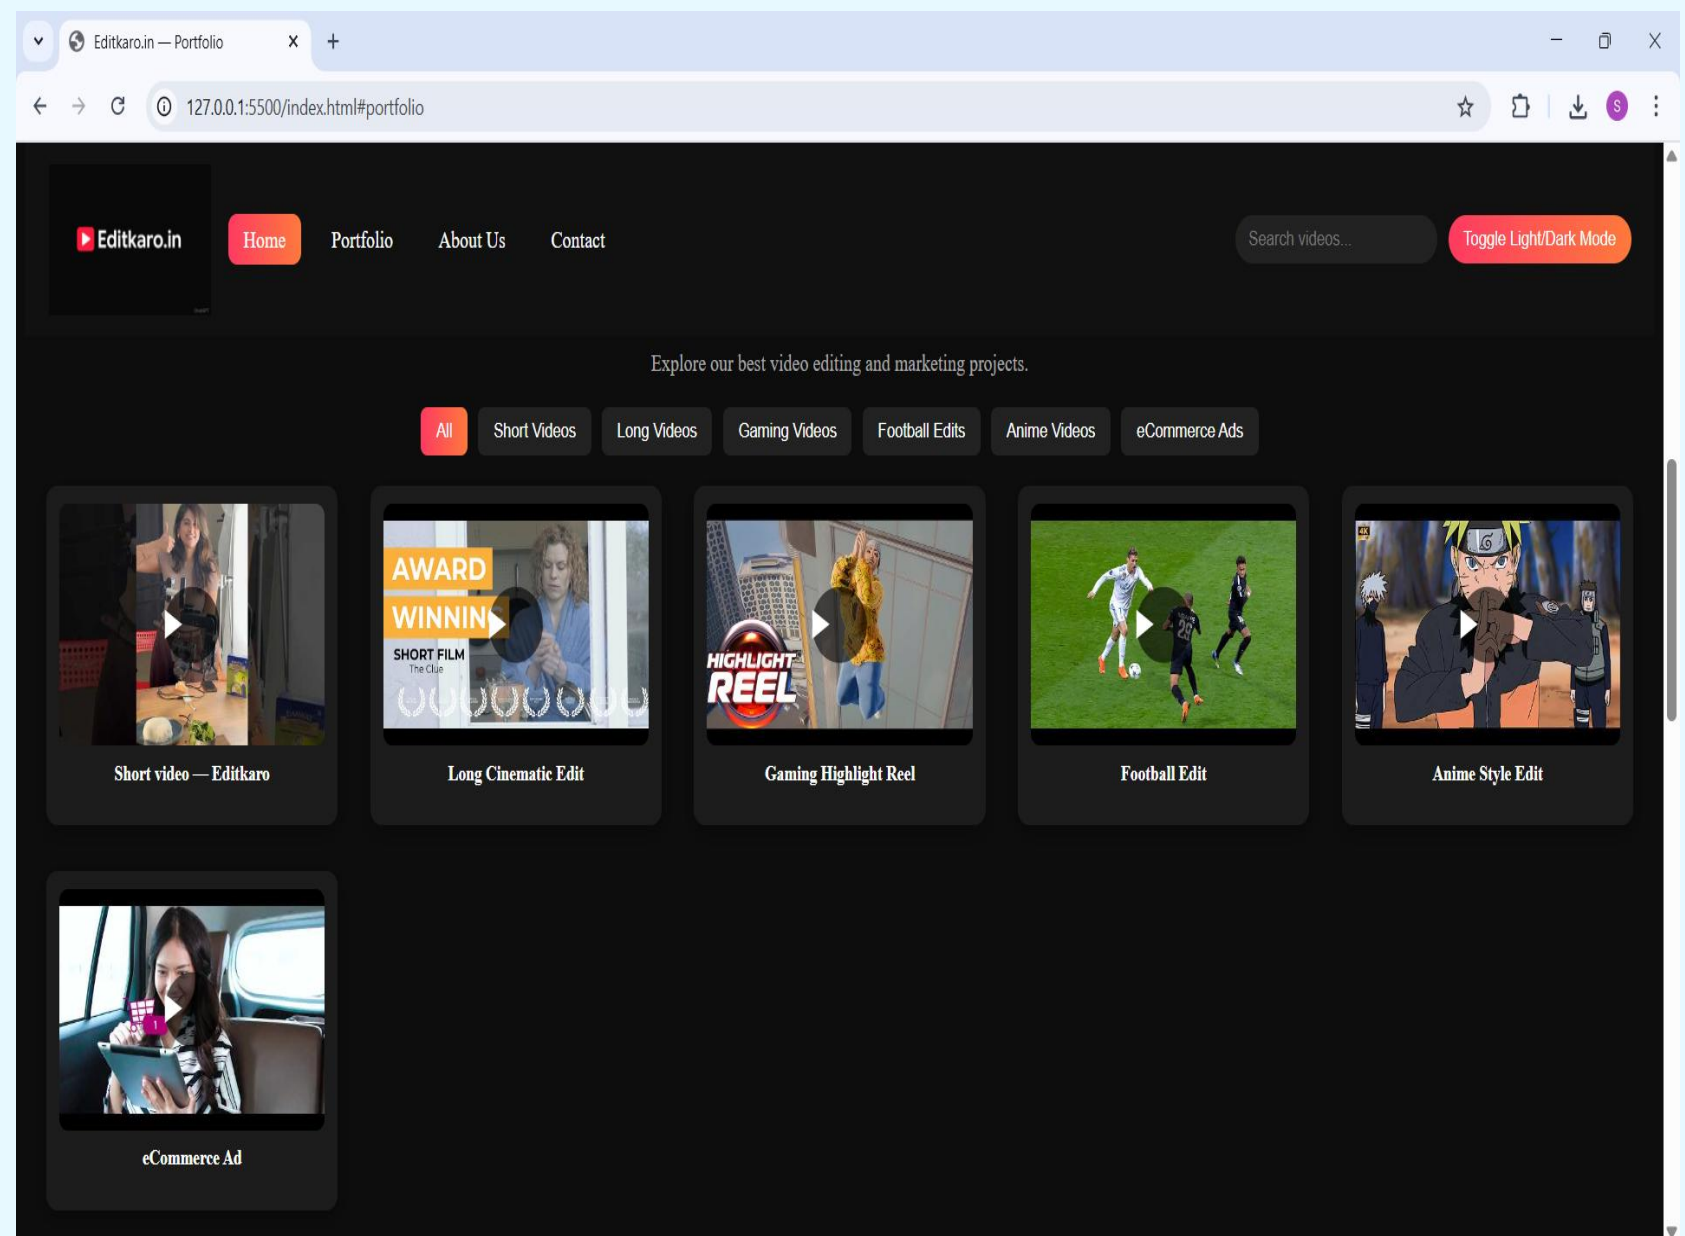

The Home Page introduces Editkaro Portfolio with a clean, modern design. It highlights creativity and professionalism, showcasing the creator's expertise in video editing and digital media. Visitors can quickly understand the purpose of the portfolio and navigate to projects or contact sections."

# DEMO

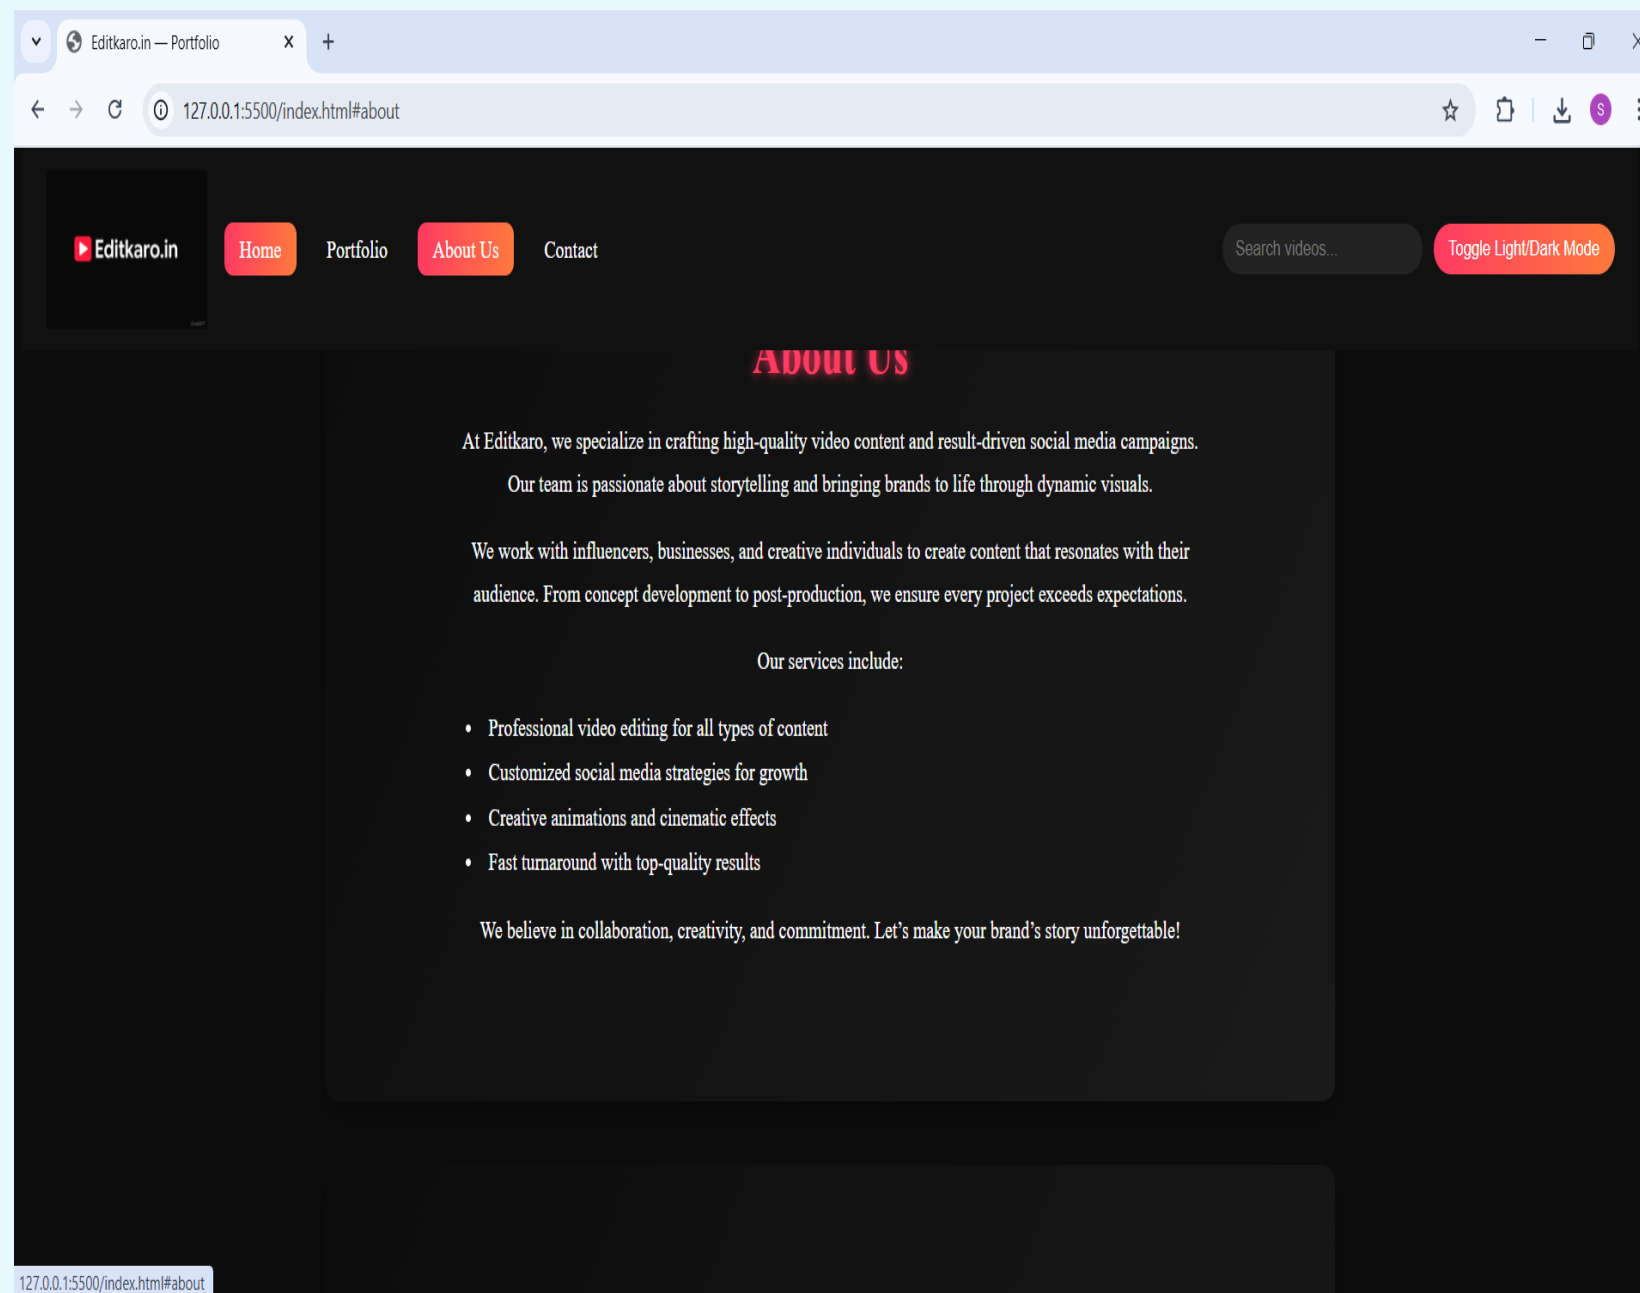

## PORTFOLIO PAGE:

The Portfolio Page showcases a curated collection of my creative projects, including video editing, motion graphics, and brand storytelling. Each project is displayed with a thumbnail, a brief description, and the tools used, providing a clear and engaging overview of my skills and work. Visitors can easily browse through projects to understand the quality and style of my creative output.

# DEMO

## ABOUT US PAGE:

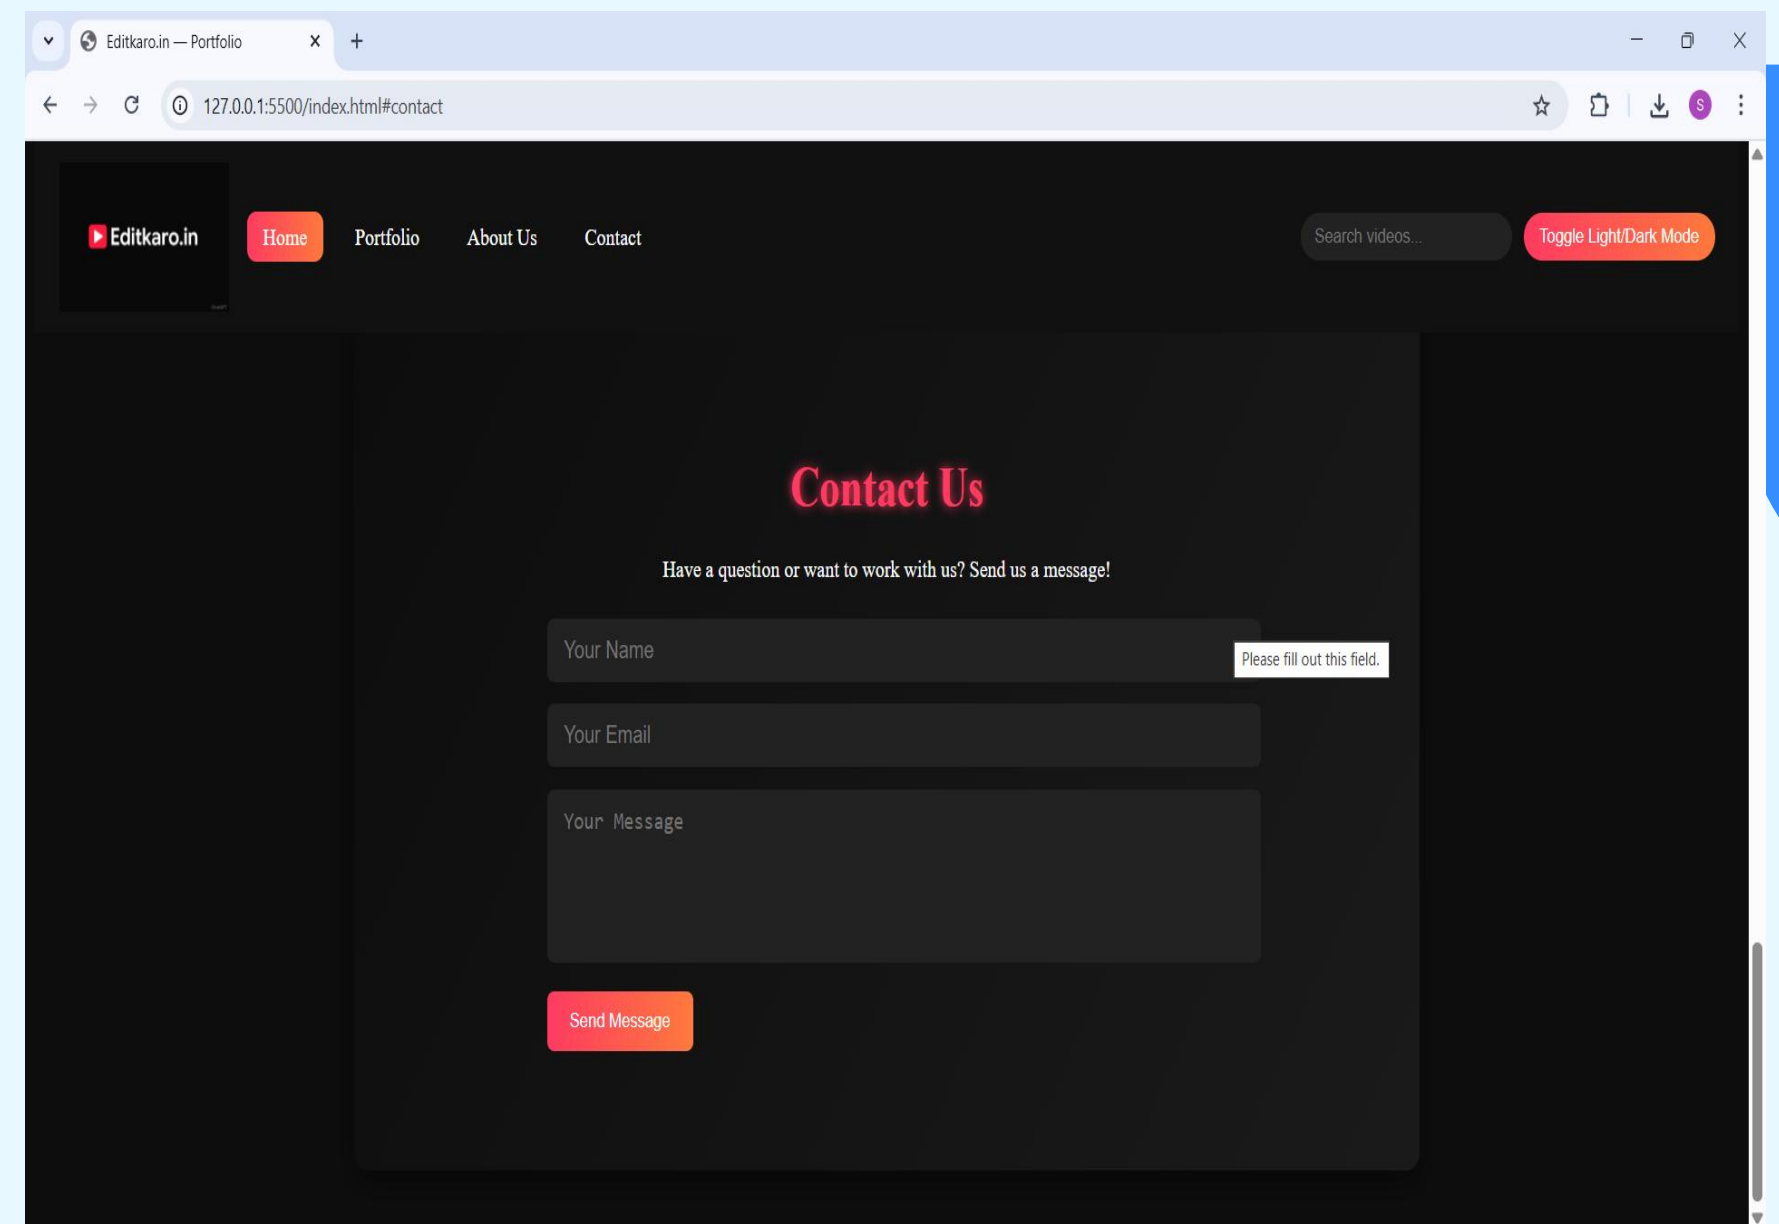

The About Us page introduces the creator behind Editkaro Portfolio, highlighting skills in video editing, motion graphics, and digital media. It provides visitors with insight into the creative journey, professional experience, and passion for storytelling. This section helps build credibility and connects viewers to the person behind the work.

# DEMO

## CONTACT PAGE:

The Contact Page provides a simple and user-friendly way for visitors to get in touch. Users can fill out their name, email, and message to inquire about projects, collaborations, or services. This section ensures smooth communication and encourages potential clients or collaborators to connect directly.

The screenshot displays a web browser window with the address bar showing '127.0.0.1:5500/index.html#contact'. The website header includes the 'Editkaro.in' logo and navigation links for 'Home', 'Portfolio', 'About Us', and 'Contact'. A search bar and a 'Toggle Light/Dark Mode' button are also present. The main content area features a 'Contact Us' heading in red, followed by the text 'Have a question or want to work with us? Send us a message!'. Below this, there are three input fields: 'Your Name' (with a 'Please fill out this field.' error message), 'Your Email', and 'Your Message'. A red 'Send Message' button is located at the bottom of the form.

# APPLICATIONS

- ➡ **Freelancers:** Showcase work to attract clients and projects.
- ➡ **Job Seekers / Students:** Present creative projects in resumes and portfolios for internships or job applications.
- ➡ **Client Collaboration:** Provide clients with a centralized view of past work and expertise.
- ➡ **Professional Branding:** Build a strong personal or professional online presence
- ➡ **Marketing & Promotion:** Display video editing and digital media skills for brand storytelling
- ➡ **Creative Networking:** Connect with other professionals in the media and creative industry.

# FUTURE SCOPE

The portfolio can be enhanced by adding a blog or case study section, implementing dark/light mode, integrating a backend for dynamic data, optimizing for SEO, adding animations on scroll, and introducing filters and sorting options for projects..

# CONCLUSION

Editkaro Portfolio effectively presents creative skills online. It offers a professional, responsive, and visually appealing platform that strengthens personal branding, builds credibility, and enhances career opportunities. Future enhancements can make it an even more dynamic and interactive website.

# REPOSITORY&REPORT

The complete code for the Editkaro Portfolio project is available on GitHub:

[https://github.com/YSRani/Editkaro\\_Portfolio](https://github.com/YSRani/Editkaro_Portfolio)

And you can see the live Demo here: [https://ysrani.github.io/Editkaro\\_Portfolio/](https://ysrani.github.io/Editkaro_Portfolio/)

The project was enhanced with clean HTML5 structure, modern CSS styling, responsive layouts, and interactive JavaScript elements. Key challenges included ensuring responsiveness, resolving animation conflicts, handling the contact form on a static site, and optimizing images for faster load times. These were overcome using flexbox and grid layouts, simplifying animations, integrating a serverless form solution, and compressing images. The website was tested on multiple devices and browsers to ensure consistent performance and a smooth user experience.

The background features several abstract geometric shapes in two shades of blue. In the top right, there is a small dark blue circle and a larger light blue semi-circle. On the right side, there is a light blue semi-circle and a dark blue semi-circle. On the left side, there is a light blue semi-circle and a dark blue semi-circle. At the bottom left, there is a light blue semi-circle and a dark blue semi-circle. At the bottom right, there is a dark blue circle.

**THANK YOU**
